SUMMARY

Aspiring Software Developer pursuing **M.Sc. in Computer Science & IT** from JAIN University with a strong foundation in **Java, Python, Android development, and DBMS**. Hands-on experience in developing real-time Android applications using **Firebase and Jetpack Compose**. Active on **GitHub** with deployed projects. Seeking an entry-level **Android / Software Developer** role to apply technical skills and academic project experience.

PROJECTS

ParKoo - Smart Parking System

M.Sc. Major Project

- **Android-based** smart parking solution that helps users find and book parking slots in real-time.
- Implemented user authentication, real-time slot availability tracking, and booking management features.
- Integrated **Google Maps API** for location-based parking search and navigation.
- **Technologies:** Android Studio, XML, Firebase, Google Maps API.
- **Source Code:**  github.com/lusifur1622/parkoo-smart-parking

Chatza - Real-Time Messaging App

M.Sc. Minor Project

- **Android-based** real-time messaging application using **Firebase Authentication and Cloud Firestore**.
- Implemented secure email/password authentication, real-time message synchronization, and user chat interface.
- Designed a modern, WhatsApp-like UI using **Jetpack Compose**.
- **Source Code:**  github.com/lusifur1622/chaza-messaging-app

Android Location-Based Alarm System

BCA Final Year Project

- **Android application** that triggers alarms based on the user's geographical location.
- Integrated **GPS services and notification systems** for real-time tracking.

Smart Air Quality Monitor

BCA Minor Project

- Developed a sensor-based system to monitor air quality parameters.
- Implemented data logging and alert mechanisms for unsafe conditions.

EDUCATION

2024 – 2026 **M.Sc. Computer Science & Information Technology**
JAIN (Deemed-to-be) University

First Year CGPA: 8.29

2018 – 2021 **Bachelor of Computer Applications (BCA)**
Reva University

CGPA: 8.11

TECHNICAL SKILLS

Languages	C, C++, Java, Python, C#
Frameworks / Tools	Android Studio, Jetpack Compose, Firebase, .NET, Web Technologies, Git/GitHub
Databases / Cloud	RDBMS, Advanced DBMS, Cloud Computing, Firestore
Core Concepts	OOP, DSA, Software Engineering, Operating Systems, Computer Networks

GITHUB

 github.com/lusifur1622

Active GitHub profile featuring Android development projects including **ParKoo Smart Parking** and **Chatza Messaging App**. Both projects demonstrate proficiency in Firebase integration, Jetpack Compose UI, and real-time data synchronization.
